PUT MORE POWER ON THE ROAD.

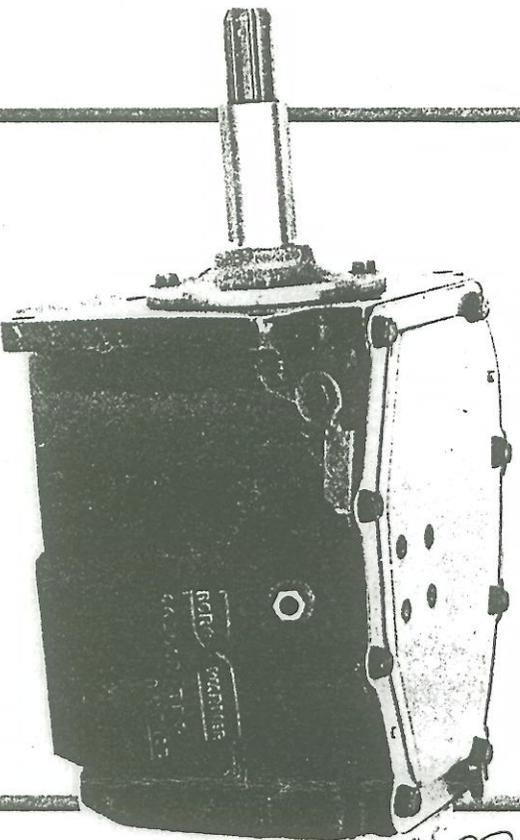

A power Brute 4 speed gearbox will give you more flexibility utilising your motor's peak torque range, delivering maximum power over a wider range of road speeds. Synchro on all four; helical cut gears for quiet, durable running.

Fit a Power Brute 4 speed gearbox for increased performance:—

- You have a gear for every situation.
- Ideal for towing, when you need a ratio "inbetween".
- More pick-up to get you moving quickly.
- Great driving! in a car that feels like it's made to drive.

Power Brute 4 speed gearbox assemblies (complete with gearshift and knob) are available to fit most popular Australian 6 cylinder and V8 vehicles.
